The Fire + Water Artists' Book Festival will feature local artists who work primarily in book format, also includes zines, prints, posters, calendars and more. The Fire + Water Artists' Book Festival is honoring and representing the roots of The House of RAD, which is welding, metals and fire, while we are also honoring Water because we are located on one of the greatest lakes, Lake Michigan, and without water we would not have paper. AP3 and Studio Tlacuilo + Library are organizing this year's inaugural artists' book festival. This community of book artists, printers and makers will give gratitude to the bookmakers of the past, those who fought against massive book burnings throughout the Americas, spanning from 15th-Century till today. We acknowledge we are on the traditional Potawatomi, Ho-Chunk and Menominee homeland and we invite you all to join us to celebrate.

*We are not charging a vending fee this year, but we are asking all selling artists to donate 10% of sales totals to AP3. We appreciate your donation. AP3 is a volunteer-run nonprofit and community support and membership will maintain the community press and workshops.
